This custom-built mountain retreat, designed by renowned architect Bill Ashe, is truly a showstopper. Privacy, long-range views, and exceptional craftsmanship come together in a home where every detail has been thoughtfully executed. Ideally located for convenience yet offering remarkable tranquility, the property feels spacious, inviting, and distinctly refined. An expansive front porch sets a welcoming tone as you approach the impressive entrance. Inside, soaring ceilings, custom beams, and a dramatic stone fireplace create a grand yet warm and cozy atmosphere. The main floor flows seamlessly with a primary suite, laundry, and an open great room adjoining the kitchen- perfect for everyday living and entertaining. The upper level features three bedrooms, each with its own full bath, one of which could be used as a versatile bonus area with built-in bunks and ample space for play, media, or guests. A loft overlooking the great room provides an inspiring spot for an office, craft room, or simply relaxing while taking in the natural light and mountain views. The lower level offers a generous finished space ideal for a home gym, studio, or recreation area, along with a convenient half bath. Outside, a secluded back terrace and covered porch provide peaceful privacy enhanced by the soothing sound of your own private waterfall.
